

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:
Mark J. Ratain *et al.*

Serial No.: 10/057,834

Filed: January 25, 2002

For: COMPOSITIONS AND METHODS FOR
OPTIMIZING UGT2B7 SUBSTRATE
DOSINGS AND FOR PREDICTING
UGT2B7 SUBSTRATE TOXICITY

Group Art Unit: 1634

Examiner: Unknown

Atty. Dkt. No.: ARCD:358US

CERTIFICATE OF MAILING 37 C.F.R. 1.8	
I hereby certify that this correspondence is being deposited with the U.S. Postal Service with sufficient postage as First Class Mail in an envelope addressed to: MS AMENDMENT, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, on the date below:	
March 28, 2005	
Date	Gina N. Shishima

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

MS AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

In compliance with the duty of disclosure under 37 C.F.R. § 1.56, it is respectfully requested that this Supplemental Information Disclosure Statement be entered and the documents listed on attached Form PTO-1449 be considered by the Examiner and made of record. Copies of the listed documents required by 37 C.F.R. § 1.98(a)(2) are enclosed for the convenience of the Examiner.

In accordance with 37 C.F.R. §§ 1.97(g), (h), this Supplemental Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be

construed to be an admission that the information cited is, or is considered to be, material to patentability as defined in 37 C.F.R. § 1.56(b).

To comply with 37 C.F.R. § 1.98(a)(3)(i), I am providing a concise explanation of the relevance of B2 and B7, which I understand are patent applications not in English. An English translation of the abstract for each application is provided. These translations were obtained as part of the record for these applications from search databases.

B2 is included on the 1449 because it was believed to have been either cited or identified during the prosecution of an application unrelated by priority to the present case but related by inventorship (Mark Ratain). A translation of the remainder of the application has not been obtained because it does appear applicable to the current application based on the English abstract.

B7 is included on the 1449 because the English abstract was identified in a search for patents and patent applications concerning UGT polymorphisms. A translation of the remainder of the application has not been obtained because the abstract discloses polymorphisms in exons of UGT1, and not noncoding regions of the gene. Thus, it is relevant to the extent it concerns UGT1A polymorphisms.

A fee as set forth in 37 C.F.R. § 1.17(p) in the amount of \$180.00 is enclosed. If an appropriate check has not been enclosed, or if it is insufficient, the Commissioner is authorized to deduct the appropriate fees from Fulbright & Jaworski L.L.P. Account No.: 50-1212/ARCD:358US.

Applicants respectfully request that the listed documents be made of record in the present case.

Respectfully submitted,

Gina N. Shishima
